Hardcover List price \$49.95

Monroe Diefendorf

From strandbooks.com By today's standards, wealth is generally measured by one's financial status. In "3 Dimensional Wealth," veteran financial advisors Monroe Diefendorf and Robert Madden reveal how tangible assets such as money, property, and possessions are only one aspect of wealth. The premise is simple: replace the preconceived notions of wealth with a more encompassing perspective that includes personal, financial, and social dimensions for a total measurement of your life. This book will help you define, articulate, and integrate these three dimensions of your life. You will learn how to maximize your total wealth potential now and for the future.
